

StudentDev Hub

Live URL: <https://studentdevhub.netlify.app/>

Description

StudentDev Hub is a web platform designed to support student developers by providing access to learning resources, development tools, and collaboration opportunities. The platform enables students to explore programming materials, improve their technical skills, and stay up to date on the latest development trends.

Key features

- Development of learning resources
- Programming tutorials
- Clean responsive interface
- Easy navigation for students
- Online developer community hub
